SMS:-As per the forecast of IMD, there is a chance of Moderate rainfall in the district. Above normal rainfall is expected in Kerala.

### General and Agrometeorological Advisories for Thrissur District

Special crop management is required for agricultural crops during monsoon season. Proper drainage facilities have to be ensured. If the soil is more acidic, add lime as per soil testing. Pesticides should not be applied during rainy period. Provide supports for the bananas. Make the vegetable pandals stronger. Avoid standing in open areas to protect farmers and livestock from lightning and thunder.

Crop		Crop/ Animal Advisory
Rice (virippu)	Land preparation	When transplanting of virippu paddy was done, 140 kg lime per acre can be applied in the field during land preparation.
Banana	Rhizome rot	During rainy season, there is a chance of Rhizome rot in banana. As a prophylactic measure, drench the basin with 3 litre of pseudomonas solution (20g per one liter of water).
Pepper	Foot rot/ Quick wilt	During rainy reason as a prophylactic measure to control foot rot disease, 2.5 gram of Copper Oxychloride or 2 gram of Copper Hydroxide per one litre of water can be spray it and drenched in the basin.

Animal Husbandry: - Cattle feed should be stored on a wooden board or iron board. If moisture is in the cattle feed it may cause deadly fungal growth. If leg lameness or fever was observed, immediate medical attention should be given. (CAAECCS, KVASU, Mannuthy)
