

Certificate course on Organic Agricultural Management

Objectives:

The certificate course aims at sensitizing the need and generating knowledge and skill on various organic farming practices, so as to equip the learners carrying out organic agricultural production and management.

Justification

The health of individuals and communities cannot be separated from the health of ecosystems; healthy soils produce healthy crops that foster the health of animals and people. Health is the wholeness and integrity of living systems. It is not simply the absence of illness, but the maintenance of physical, mental, social and ecological well-being. Immunity, resilience and regeneration are key characteristics of health.

The role of organic agriculture, whether in farming, processing, distribution, or consumption, is to sustain and enhance the health of ecosystems and organisms from the smallest in the soil to human beings. In particular, organic agriculture is intended to produce high quality, nutritious food that contributes to preventive health care and well-being.

Organic farming is helpful in creating integrated, humane, environmentally and economically sustainable agriculture production systems. The maximum reliance is placed on locally or farm-derived renewable resources and the management of self-regulating ecological and biological processes and interactions to provide the acceptable levels of the crop, livestock and human nutrition, protection from the pests and diseases, and an appropriate return to the human and other resources employed.

It is high time to sensitize and generate knowledge about organic farming practices, especially in the context of the present organic agricultural policy of the Government of Kerala. In this backdrop, a certificate course on organic Agricultural Management is proposed to be started.

Details of the proposed programme

Duration	:	6 months
Total Credits	:	18
Location	:	Centre for E-learning, Kerala Agricultural University College of Horticulture Vellanikkara, Thrissur-680 656
Registration	:	April and September Sessions -separate registration for institutions

Major areas of teaching:

No	Module	Hours	Credit
a	Concept of organic farming	12	1+0
b	Organic plant nutrient management	48	2+1
c	Organic plant protection	36	1+1
d	Organic crop production practices	48	2+1
e	Organic certification	36	1+1
f	Entrepreneurship Development	12	1+0
g	Case study & project report	48	0+2
h	Major project work	96	0+4
Total		336	8+10=18

Selection process : On-line registration and Online screening

Eligibility for admission : Candidate should have a minimum qualification of pass in 10th standard , recognized by any of the Govt. Examination Board

Implementing team:

Supervising Head : Director of Extension, KAU.

Institutional Head : Director, Centre for E-learning

Course Director : Institutional Co-ordinator,
Centre for E-learning

Course Coordinator : [Concerned Colleges/Institutions](#)

Course fee:

Rs.6,500/- per participant (50% concession for regular students in Govt. approved institutions)

Contact Details : **Director (Centre for e-Learning)**

**Phone : 0487 2438566 /
2438567**

e-mail : celkau@gmail.com

Mode of delivery

Theory : Blend of online tutorials, class room sessions and non-compulsory contact classes.
